

# Criterion® System Requirements

## Technical Information & Specifications for the Computer Technology Specialist

The **Criterion® Online Writing Evaluation** v9.1 service is a web-based instructional tool that helps students plan, write and revise essays, and provides instant scoring and annotated diagnostic feedback.

**WHENEVER YOU ACCESS** the *Criterion* service, the following configuration requirements must be met:

### Browser Settings:

Browsers should be set to “accept all cookies” and security settings should be set no higher than medium.

### Internet Port Settings:

If you are accessing the *Criterion* service from behind a firewall or other network security device, let the protocols http and https go outbound.

### Firewall Timeout Settings:

Make sure that none of the security devices is set to automatically disconnect a user’s session prematurely. It is recommended not to set any disconnect settings for less than **60 minutes**.

### Filtering Software:

The use of web filters to scan content from the *Criterion* service is not recommended. Filtering *Criterion* files may reduce the performance of the *Criterion* service. If your network uses content filtering, we recommend that it be configured to trust all content from our domain. ETS takes great precautions that all delivered content is free of viruses and inappropriate material.

### Filter Settings:

If using content filtering, then the following URLs must be permitted through the filters:

<http://criterion.ets.org>  
<http://criterion1.ets.org>  
<http://criterion2.ets.org>

<http://criterion4.ets.org>  
<http://criterion28.ets.org>

### Available Bandwidth:

The *Criterion* service is a web-based application and the application performance could be affected by improperly configured network settings or using hubs instead of network switches. Additionally, the number of simultaneous users as well as overhead produced by other applications could affect the *Criterion* service performance. For these reasons, it is recommended that the network bandwidth utilization levels should be maintained below 70 percent.

### Proxy Server Settings:

If your network utilizes a proxy server, then ensure that *Criterion* web page data coming in from the following *Criterion* URLs are not cached:

<http://criterion.ets.org>  
<http://criterion1.ets.org>  
<http://criterion2.ets.org>

<http://criterion4.ets.org>  
<http://criterion28.ets.org>

# Criterion® Online Writing Evaluation – System Requirements

## Network Specifications

The following is the recommended minimum network guideline for your local network infrastructure. The *Criterion* service is an online interactive application; overall performance could be affected during periods of high network traffic.

Network Attribute	Minimum	Recommended
LAN Connectivity	10MB	100MB
Building/Facility Bandwidth	256KB	T-1 (1.54MB) or Greater
Desktop Bandwidth	56K	Broadband Connection: Cable, DSL
Routers and Switches	Network Hubs	Cisco® 2600 and 2900 Series Routers/Hubs (or equivalent)
Wiring and Cables	CAT-5	Fiber Backbone to Switches

## Personal Computer Specifications

The *Criterion* v9.1 website will operate on the following personal computers, provided that they meet the standards below.

### Specifications for Student, Instructor and Administrator Machines (PC)

Hardware/OS/Browser	Minimum	Recommended
Desktop PC or Laptop	Pentium® II	Pentium® III or Greater
Input Device	Keyboard Mouse	Keyboard Mouse
Operating System	Windows® 2000, XP, Vista®	Windows® XP, Vista®
Browser: Enable Java Scripting and Cookies	Internet Explorer® 6.0-7.0; Firefox® 2.0-3.0	Internet Explorer® 7.0; Firefox® 3.0
Graphics Adapter	SVGA 1024x768 Resolution	SVGA 1024x768 Resolution
Display	any SVGA Color Monitor	any 17" SVGA Color Monitor or Larger

## Linux Specifications

The *Criterion* v9.1 website will operate on the following Linux computers provided that they meet the standards below.

### Specifications for Student, Instructor and Administrator Machines (Linux)

Hardware/OS/Browser	Minimum	Recommended
Desktop PC or Laptop	Pentium® III	Pentium® III or Greater
Input Device	Keyboard Mouse	Keyboard Mouse
Operating System	Novell Linux Desktop 9; Linspire 5.0	Novell Linux Desktop 9; Linspire 5.0
Browser: Enable Cookies	Firefox® 2.0; SeaMonkey® 1.1	Firefox® 2.0; SeaMonkey® 1.1
Graphics Adapter	SVGA 1024x768 Resolution	SVGA 1024x768 Resolution
Display	any SVGA Color Monitor	any 17" SVGA Color Monitor or Larger

## Macintosh® Specifications

The *Criterion* v9.1 website will operate on Power Mac® and G3/G4 systems, provided that they meet the recommended minimum standards below.

### Specifications for Student, Instructor and Administrator Machines (Macintosh)

Hardware/OS/Browser	Minimum	Recommended
Macintosh®	Power Mac® G3	Power Mac® G4 or G5
Input Device	Keyboard Mouse	Keyboard Mouse
Operating System	Mac OS® 9.2, OS X 10.1-10.5	OS X 10.2 or Higher
Browser: Enable Cookies	Firefox® 2.0-3.0 & Safari 1.2.4-3.2.1 (compatible only with Mac OS X, not OS 9)	Firefox® 3.0 & Safari 3.2.1 (compatible only with Mac OS X, not OS 9)
Graphics Adapter	Graphics 1024x768	Graphics 1024x768
Display	Macintosh® Monitor	17" Macintosh® Monitor
